INTERNSHIPS

Cyber Security Analyst Intern
SUPRAJA TECHNOLOGIES

07/2022 - 09/2022,

Provided base level IT support to non-technical personnel within the business. Installed software, modified and repaired hardware, and resolved technical issues. Organized hands-on training in computer forensics and penetration testing labs.

I learned Natural Language Processing (NLP) and gained hands-on experience in using NLP techniques to analyze and process text data. I collaborated with the team to implement NLP solutions, which improved data-driven decision-making and contributed to the success of projects.
